COVID-19 Rule Reminders

While it is no surprise that COVID-19 rules are causing change for us all, it is still important to follow the rules as they are set by the local government and health departments. As the State of Nebraska and/or the Health Department adjust the rules, expect our school rules to change accordingly.

If ANYONE in Your House has a Positive Test Result:

You need to call/text Mrs. Schroeder to inform school. Current guidelines are that *ALL Household members* stay home until able to return on date set by ELVPHD.

If EXPOSED to someone who has now tested positive for COVID-19 :

You need to call/text Mrs. Schroeder to inform the school. Current guidelines have changed since the beginning of school, now *only the person(s)* who were in close contact with positive COVID-19 person are required to quarantine, before the whole family had to quarantine.

Parents, we are asking you to refrain from entering the building.
Please call before arrival or wait at the door for someone to help you.

Mrs. Tammy Schroeder is the school contact person for all matters relating to COVID-19.
Her contact information: tschroeder@stpaulwpne.org cell: 402-380-9175

These rules are to keep our students, staff and families safe and healthy.

Again, if you have any concerns or questions please let us know.
